

KO eHealth Needs Assessment Survey - Health Care Workers

The KO eHealth Community Education Program provides access to training, discussions and gatherings through the use of video conferencing to the communities every week. Everyone is encouraged to join us to learn about healthy living, accessing available services and making our communities healthier places to live. Please help us make these workshops better for your communities by completing this survey. All your answers will be confidential and used for KO eHealth only.

* 1. What community do you work for?

* 2. What is the job title for your current position?

* 3. Have you had any training for this job?

Yes

No

* 4. If you answered Yes for question 3, then briefly describe the training you had and how long it lasted.

* 5. If you answered No for question 3 or if you feel you need more training, then briefly describe what courses or types of training you want or need to do your job better.
